RAVENNA HORROR.

Startling Statement About the Recent Wreck.

MORE DISASTROUS THAN EVER.

The Conductor of the ill-fated Passenger Train Believes That Twelve More People Perished Than Have Been Accounted for, and That His Son Was Among That Number—The Coroner's Inquest.

CHICAGO, July 7.—A special to The Herald from Alliance, O., says: Considerable excitement was occasioned at Ravenna yesterday by the announcement that Conductor Boynton's ticket report shows that there are twelve people in the wreck who have not yet been accounted for. When the bodies were taken out of the ruins they were so badly bruised and disfigured that they could not be identified except by ascertaining who was missing. This was a comparatively easy matter with the members of the glass blowers' party in the special car, but in the sleeper Warsaw, which was also completely burned, it was impossible.

Conductor Boynton is of the belief that there was a dozen others in the wreck and that his son was among them as no trace of him has yet been discovered. Friends were in Ravenna yesterday searching for another missing man. There were two Put Ryans on the train, one of whom was known to have been killed. The other is missing.

The Coroner's Inquest.

RAVENNA, O., July 7.—The coroner's inquest on the terrible railroad accident at this place was continued yesterday, but elicited little beyond what has already been published. Conductor Boynton, of the passenger train, with his son, who was the rear brakeman, were on the stand as well as the engineer and fireman. They testified that the passenger train had the right of way at Ravenna for five minutes and that but three minutes had elapsed when the freight train ran into them. The engineer and fireman of the freight train were examined, and stated that they did not receive the danger signals in time to stop the train. Others were examined about minor points of information. The inquest will be continued.

BRUTAL WHITE CAPPERS.

The Victim of the Outrage Now Lying at Death's Door.

BLOOMINGTON, Ind., July 7.—Details of a whipping by White Caps in the southern part of this county, which will result fatally to the victim, has been received here. Nearly three weeks ago a band of masked men went to the home of Luther Jones after nightfall, entered his house while he was asleep, and after wrapping him in a blanket carried him one hundred yards from his home and compelled him to kneel beside a tree, bending his head to the roots. In this position his arms were bound to the tree and he was whipped with switches, and the brutal work was continued until his back was a mass of bleeding flesh.

Jones was then released, and he was warned to return to his house and not look back, else he would be shot dead. He was also given twelve hours in which to leave the county. The next morning he went to Green county and remained with relatives, and but few knew of the outrage until last Thursday. Then a telegram was received from his friends that he was in a dying condition, and on Friday he was returned to this county and he is now lying in a critical state at his father's house. His parents report that he cannot recover.

The principal injury is due to a kick which he received in the back from one of the White Caps while they were carrying him to the tree, prior to the whipping. The cause of the whipping is attributed to Jones's ill-treatment of his wife. A sad incident connected therewith is that his wife, who is only about 25 years of age, is fatally ill of consumption and is only able to talk of the terrible event in a whisper.

CHILIAN INSURGENTS.

They Feel Very Bitter Towards the United States Over the Itata Matter.

SAN DIEGO, Cal., July 7.—The United Press correspondent interviewed the officers of the Charleston yesterday, and from them learned that the insurgents are very bitter towards the United States because of their action in the Itata matter. They had hoped that this government would not interfere, and many even expected it to assist their cause. The insurgents now have about 20,000 men in the field, while the government forces are not quite so numerous. The congressional party are in possession of almost the entire country north of Valparaiso. The Balmaceda forces recently made an attack upon Iquique, but were repelled.

There is rumor here to the effect that an insurgent commander came north with the Itata, and is now on his way to Washington, but this cannot be confirmed.

Deaths at Cape May.

CAPE MAY, N. J., July 7.—Attorney General Miller arrived yesterday afternoon as the guest of the president. Postmaster General Wanamaker arrived at the cottage. Mrs. Harrison, Russell Harrison, Lieutenant and Mrs. Parker, and Mrs. Dimmick were out on the inlet sailing and fishing during the day. Charles Emory Smith was at the Capitol and had an informal chat with the president.

Struck for Higher Wages.

COLUMBUS, Ind., July 7.—Fifty of the employees of the Cereoline Manufacturing company struck for higher wages yesterday and were promptly discharged by the company. The mill will not shut down on account of the strike.

A LIFETIME OF SLEEP.

A Minnesota Man Who Has Been Asleep the Greater Part of Sixteen Years.

ST. PAUL, July 7.—Herman Harms, the Minnesota sleeper, is awake. His case is probably the most peculiar known to physicians, whose skill it has baffled for the last dozen years. A few days ago he awoke, and has taken only an ordinary amount of sleep since. His recovery, however, is doubtful.

Mr. Harms is now living on a farm about mid-way between St. Charles and Quincy, Minn. Some sixteen years ago he was attacked by a severe fever, and had intense pains shooting through his head. He was then in Illinois. His physician advised him to move to a colder climate. He accordingly came to this state. During his stay in Illinois he did not sleep all of the time, but since he came to this state he has never been awake, except for an interval of a year and a half, beginning with 1881, and two months of 1889 and 1890.

When he is sleeping he can only be awakened by his wife touching him on the head. Calling has no effect on him. He takes no nourishment at all to speak of, and then only when he is aroused from his comatose condition. Harms was born in Germany in 1838. He was married to Miss Buzman in 1863. His faithful wife has zealously guarded him throughout all these years.

LATEST FROM CHILI.

Another Naval Engagement, but Very Little Damage Done.

NEW YORK, June 7.—Advices from Iquique dated June 24 are as follows:

The transport Imperial and the torpedo cruisers Condell and Lynch have been man-overboard near the port since yesterday, and a few hours ago they commenced firing. Yesterday they were sighted from Pisagua shortly after midday and they opened fire on the town, causing, however, but slight damage, the church and the Pacific hotel being only buildings struck by their shots. From the shore the fire was returned with cannons at the railroad station, but it is believed none of the shots struck the Imperial. At the time none of the junta's vessels were at Pisagua.

The Acoraguo and the O'Higgins went away from here, but by the time they arrived at that port the government torpedo boats had already retired. After firing for four consecutive hours on the town the Imperial, Lynch and Condell appeared again in the bay at 6 p. m. and commenced firing on Iquique, but at too great a distance to cause damage. They were chased by the Huascar and Abtao, but made good their escape, and everything appears quiet now.

The congressional army stationed at Iquique, according to a northern paper, is composed of 5,850 men.

AN OLD SAILOR'S SUICIDE.

He Deliberately Swam Out to Sea and Dies as Did His Wife.

SAVANNAH, July 7.—Captain Luther Martin committed suicide at St. Simon's island, near Brunswick, Saturday night. He was 73 years old and wealthy. In 1881 his wife committed suicide at the same point by plunging into the ocean while insane. Saturday was Captain Martin's birthday. A few days ago, in speaking of its coming, he said he had lived long enough and would die as his wife did.

Saturday night he alighted the watch that was kept over him, and going to the beach, walked into the water, fully dressed, even to a straw hat. Other bathers in the water, who did not know him, thought he was too modest to wear an ordinary bathing suit. Martin walked out to deep water and deliberately swam out to sea. Nothing has been heard of him since. He was a thorough sailor, and doubtless counted on the ebb tide carrying his body out to sea.

HANNIBAL HAMLIN'S DEATH.

It is Announced to the People by President Harrison.

WASHINGTON, July 7.—President Harrison has authorized the following announcement and notice of the death of Vice President Hamlin:

To the People of the United States: The president, with a profound feeling of sorrow, announces the death of Hannibal Hamlin, at one time vice president of the United States, who died at Bangor, Me., on the evening of Saturday, July 4. Few men in this country have filled more important and more distinguished public positions than Mr. Hamlin, and in recognition of his many eminent and varied services, and as an expression of great respect and reverence which are felt for his memory it is ordered that the national flag be displayed at half mast upon the public buildings of the United States on the day of his funeral.

Acting Secretary of State.

Preparing for Their European Trip.

WASHINGTON, July 7.—Ex-Representative Butterworth, Mr. M. P. Handy and other members of the world's fair commission, who are going to Europe as promoters, were in the city yesterday. Mr. Handy and Mr. Butterworth were at the treasury department for a while, making final arrangements for their departure. The members of the commission will hold a meeting on Wednesday, and a few days later will sail for Europe. The principal capitals will be visited, and they will try to get back in time for the board meeting in Chicago on Nov. 10.

Mr. Blair Not Drawing a Salary.

WASHINGTON, July 7.—Acting Secretary of State Wharton declined to talk about the formal declaration of the Chinese government to receive ex-Senator Blair as United States minister to that country. He said, however, that he would like to have it known that Mr. Blair has drawn but one month's salary, which the law allows, since his appointment, and that he is not, as erroneously reported, drawing a salary now as minister to China.

WORK OF A CYCLONE

Baton Rouge, La., Visited by a Terrific Wind Storm.

MANY PERSONS WERE KILLED.

The Governor's Mansion Demolished and the Penitentiary Badly Wrecked—Ten People Killed and About Fifty Others Seriously or Fatally Wounded—Tow Boat Wrecked—Fifty Houses Damaged or Destroyed.

NEW ORLEANS, July 7.—At 6:30 yesterday morning a terrific wind and rain storm struck Baton Rouge, La., and in a few minutes had almost wrecked the town. Great damage was done to buildings in the eastern and southern portions of the city and many persons were killed. The governor's mansion was demolished. Also the brick yard and factory with a wing of the three-story brick building in the penitentiary known as the hospital and commissary, with a pantalon factory on the upper floor were blown down and totally destroyed. Forty were at work in the factory and and of these six were killed and twenty-two were wounded and horribly crushed. On the second floor was the hospital, where twenty-six persons were under medical treatment. Four of these were killed and fourteen seriously or fatally wounded.

The alarm bells were rung and the fire department responded and with citizens went to the work of rescue. The scene was one of horror. A violent rain was falling, but the men worked hard and soon had the dead and injured out of the debris.

The names of the killed are: Isaac McClelland, of Calcasieu parish; J. N. Waggoner, of Claiborne; Fred Gage, of Ouachita; James Van Netten, of Natchitoches; John Gibson, of Orleans; Nathan Channey, of East Feliciana; Henry Celestino, of Orleans; Ed Buckner, of Caddo; William Willow, of Orleans; Beauregard Hardon, of Rossier.

The wounded are: Louis V. Claire, M. J. Finnigan, Harry McKay, James Molico, John Duffy, John O'Leary, James Villere, Charles Sumnerfield, John O'Leary, all white, of New Orleans; Jake Jones, James Jackson, Major White and William Gibson, colored, of New Orleans; Joseph Powell, C. M. Young, T. S. Stewart, Gus Black, A. L. Garnett, D. A. Campbell, Marion Perkins, Felix Richards, J. R. Dolan, Walter Douglas, John Daly, Frank Aaron, John Farland, Meelie O'Neil and Alexander Terrell, white, from different parishes, and Oscar Phillips, William Perry, Henry Dodson, Beril Peterson, Robert Comaux, Hamson Allen and William Scott, colored. Total wounded thirty-six, of which six will probably not live and seven others are in a very critical state.

The main building and the woman's department of the institution were unroofed and the walls badly cracked. The damage to the building is about \$30,000. Ex-Judge Ford, convicted for complicity in the killing of Captain Murphy, worked gallantly at rescuing the killed and wounded. He is clerk of the commissary department. The prisoners all acted in a praiseworthy manner and gave the guards no trouble.

The towboat Smoky City was caught in the cyclone five miles below Baton Rouge and blown to pieces. Several of the crew were badly hurt. They are being sheltered by the steamer Alie until relief arrives. The Smoky City left here on Saturday night, and was proceeding up the river. She is owned by S. S. Crump & Company, Pittsburg, who are represented here by Messrs. W. G. Coyle & Company. At the office of the agents nothing more than what is contained in these dispatches was known of the disaster. The crew of the boat are nearly all from Pittsburg and vicinity.

The following of the crew were killed and wounded: Johnson, colored, fireman, of Louisville, was blown overboard and drowned. The wounded are as follows: Arlham Creevis, deckhand, white, of Louisville, internally injured, serious; sent to New Orleans. Harry Martin, white, of Pittsburg, assistant engineer, leg and ankle. James Bardsley, white, of Louisville, steersman, arm and legs. G. W. McBride, white, pilot, of Louisville, hands hurt, serious.

The path of the storm was about 300 feet wide, and nearly every house in its path was blown to atoms. In the southern portion of the city several persons were injured by flying timbers. The drug store of Mr. B. A. Day was completely demolished, and contents destroyed. Several grocery stores and stalls shops in this vicinity were demolished. The loss on Garie, Reddy & Company's brick yard is covered by insurance. It is the only place in the city covered by a storm policy.

In the city fifty houses at least were unroofed or destroyed. J. H. Young and members of his family were seriously hurt by the collapse of their house on St. Charles street.

Mrs. Cotton, son and two daughters, living in a brick house on Main street, were injured by a falling building. Mrs. Cotton received a dangerous blow on the back of the head and also internal injuries, while one of the girls was cut on the limb. Mrs. Cotton may recover.

The storm appeared from a southwestern direction and swept a path 300 feet or more in width diagonally across the city, leveling everything as it went. A number of handsome dwellings and tenement houses were blown to atoms and the beautiful shade trees on many of the streets were uprooted and the flags upon the capitol and other state buildings show them unharmed by the winds, as was also the business portion of the town on Main and Fero streets, unaffected by the storm.

The southern portion of the city styled "Catfish town" suffered great loss and damage of property. In this section of the city several persons were seriously hurt and bruised by flying timbers from falling houses and fences. The extent of damage done throughout the city by the storm cannot accurately be estimated at this time, but it can be said that this is the greatest loss Baton Rouge has ever sustained, either from a cyclone or a fire. The total damage done will reach several hundred thousand dollars.

A number of very narrow escapes are reported. Charley Day was in his father's drug store when it collapsed, and, although the room was turned upside down and the timbers twisted in every direction, he escaped with a slight bruise on the forehead.

PEACE REIGNS IN MEXICO.

Minister Romero Says There is No Revolt Against the Government.

WASHINGTON, July 7.—Senator Romero, the Mexican minister here, denies emphatically the truth of the report published in a San Francisco dispatch to the effect that Mexico is ripe for a revolt against the Diaz government. "President Diaz," he said to a representative of the United Press, "has succeeded in keeping Mexico in peace for about fourteen years, more than any other government ever could do, and under the shadow of that peace the credit of Mexico has been restored, and about eight thousand miles of railway have been built. The country has been rapidly developed, for foreign trade has increased considerably, the public resources have been increased, and the government is strong enough to suppress in the bud any insurrection which might take place."

"The dispatch stated that the June coupon of the Mexican bonds in London has not been paid."

"This," said Senator Romero, "is not so, since the necessary funds were sent from Mexico to London over a month ago. The foreign debt of Mexico is comparatively small, as it does not exceed \$120,000,000, and the country can easily pay the interest on that amount. While the death of Senator Dublan, our late secretary of the treasury, was a great loss to the country because he was an able man, he was only a valuable assistant in President Diaz's patriotic work, and never was a political leader, and his demise cannot therefore effect the situation in any manner at all. Nobody was ever put to death secretly in Mexico. Some have in former times been shot for political offences, but always publicly and openly."

FIXING THE BLAME.

The Railroad Company Believed to Be Responsible for the Charleston Wreck.

CHARLESTON, W. Va., July 7.—There is a diversity of opinion as to where the responsibility lies for Saturday's accident. Some look upon it as unavoidable, but the majority seem to be of the opinion that the company is to blame.

The road is in a bad condition, and it is said no track-walker is employed except in winter. The company claims, however, that every section is gone over every day, but that the trestle was at the end of the section, and the track-walker starting from the other end had not reached it when the wreck occurred. The wreck has been cleared up and burned. No bodies were found under the cars, as was predicted. The death list at present is fourteen.

Mrs. R. S. Truslow, reported dead, is improving and may recover. It is thought that William Ford, of West Charleston, will die, which will swell the list to fifteen. Mrs. Mary Wall and J. D. Jones, previously reported dead, are still living, but are badly injured.

Insanity or Death.

LOUISVILLE, July 7.—Joseph Fitzer, 50 years old, having a wife and two children, shot himself through the heart yesterday afternoon. A month ago he had an attack of spinal meningitis, and when he began to recover the doctors found that his brain was affected, and told him he would probably never recover mentally. This seemed to trouble him very much, and he left a note saying he preferred death to insanity or the dreadful suspense he would always be subjected to.

Shot as Long as Possible.

PENSACOLA, Fla., July 7.—Editor John O'Connor, of The Daily News, and United States Commissioner Tunisian had an altercation in front of the Merchants' hotel yesterday. Both men drew revolvers and fired at each other until they were emptied. After the smoke had cleared away, it was found that Tunisian had received a slight flesh wound, while O'Connor was uninjured. An article which appeared in The News reflecting upon Tunisian was the cause of the trouble.

A Royal Wedding.

LONDON, July 7.—The granddaughter of Queen Victoria, the Princess Victoria Louise, of Schleswig-Holstein, was married yesterday to Prince Arlbert, of Anhalt-Dessau. The marriage is a lucky one for Arlbert, who is a fortuneless younger son of the ruler of a cheap principality, and is about twenty-seven years of age, or six years older than his bride, who is one of the best looking of the queen's descendants.

Shoe Failure.

CINCINNATI, July 7.—A deed of assignment was filed yesterday by J. Stenger & Company, shoemakers at Seventh and Main streets. The firm was composed of John Stenger and George Busken. Assets are estimated at \$3,000 and liabilities at \$5,000.

Shot and Surrendered.

PINE BLUFF, Ark., July 7.—Warren Anderson shot and killed Horace Williams on the Oliver plantation, thirteen miles from here, early yesterday morning, during a quarrel over a trivial debt. Anderson has surrendered himself to the sheriff.

The State Journal of Newport is now issued daily. Ditto's "Dits" are still a feature of the paper.

The Republicans are trying to make political capital out of the new Constitution, but no Democrat will allow that question to affect his fealty to his party.

The People's party leaders are bringing in their big speakers and are actually making a fight for grand old Democratic Kentucky. The Democratic ticket is one of the strongest and best ever nominated and the majority ought to be one of the largest.

The Financial Chronicle, of New York, does not have a very high opinion of Secretary Foster's new form of statement to show the condition of Uncle Sam's treasury. It says "important items are now lumped in a way which serves more to excite suspicion than to quiet doubts."

The simple truth of the matter is, a form has been adopted to make a better showing on the face of things than the real condition will warrant.

The Farmers' Home Journal, the official organ of the Alliance in this State, is still after S. B. Erwin, the deposed President of the order, who is now posing as the People's party candidate for Governor. It accuses him of accepting an agency for the McCormick Reaper Company, and says:

"If this be true, he should at once withdraw from the Alliance. He, at one time, while President of the Alliance, suspended the charter of a sub-union because it would not expel a member who was doing work for a shillor company, while he, at the same time, was an agent for the same company he is at present. If Brother Erwin is really an agent for said company he should get out of the Alliance at once."

Erwin's conduct in the tobacco warehouse move last spring was an index to his character. He is working the Alliance with all there is in it, that and for that alone.

"It appears that the gentle shepherds of Ohio are not satisfied with their own work in the wool schedule of the McKinley tariff," says the Philadelphia Record. "So far from it, the Republican platform of Ohio demands 'protection for the wool industry equal to that accorded to the most favored manufacturer of wool, so that in due time American wool-growers will supply all wool of every kind required for consumption in United States.' This wooliest of all wool platforms evidently bears the mark of the canny hand of Shepherd Lawrence. As Mr. Lawrence boasts that he is the author of the wool schedule in the McKinley act, it would be interesting to American woolen manufacturers, as well as to consumers, to learn how much more 'protection' he deems necessary to realize the object of this wool resolution."

THE SCHOOL TAX.

Maysville Pays 47 Cents on the \$100 This Year—Was the City Levy Needed?

Mr. Editor: By a special act, a tax of 15 cents on the hundred dollars was voted by the citizens of Mason County for the benefit of the common schools. The last or ninth section of the above act is as follows:

Section 9. If, at the time the tax herein provided for is imposed, any district shall have heretofore voted a tax upon itself in aid of its common schools, such district tax shall not be levied nor collected unless it shall be re-submitted to the voters of said district, and by them re-affirmed.

We are therefore paying 22 cents under the State law, 15 cents under the county law and 10 cents under the city law, making 47 cents on the hundred dollars for school purposes.

As our city schools were doing well under the State and city levy of 32 cents, does it not seem burdensome to have to pay 15 cents more? The design of the law was to relieve us of the 10 cents city levy, and that argument was used when the tax was voted. Will some one in authority examine into this matter and see if we need the 10 cents levy?

TAXPAYER.

STATE AFFAIRS.

Colonel Brown's Reply to Some of Major Wood's Charges.

Colonel John Young Brown, Democratic nominee for Governor, was accorded an ovation at Vanceburg last Thursday. He addressed a large crowd in the afternoon and discussed the National and State issues in his strong and eloquent manner. Mr. Thoms M. Green was present as a representative of the Louisville Times, and below we give his report of the speech as far as State affairs were touched upon:

"Mr. Brown next gave his attention to the local affairs of our own State. His competitor was noding in the little anti-hill of Dick Tate's defection, and loudly bewailing its enormity. The matter so completely engrossed the attention of the Republican candidate as to render him unmindful, if not unconscious, of the colossal mountains of Republican fraud, venality and corruption which lift their bold and unblushing heads all around him, and which cast their gloomy and gigantic shadows all over his own party. The Auditor's books show that the Tate deficit has been credited by \$94,000, reducing the aggregate by that amount, and Attorney General Hardin had expressed to him the opinion that the entire sum which had been taken would be collected from Tate's bondsmen. He said this old chestnut of Colonel Bradley's is now the chief capital of Major Wood; that the Republicans apparently would never recover from the shock of their astonishment that in forty years the Democrats in Kentucky had produced a single defaulter. In answer to Major Wood's charge of a deficit in the treasury for this fiscal year, he showed that it had been caused by the reduction of the State tax by five cents on each \$100 worth of property, and by the \$300,000 additional expenses of the Constitutional convention. He denied the statement which has been spread broadcast, that it cost \$18,000 for the Auditor's agents to collect \$28,000. On the contrary, he stated at least \$50,000 more was paid into the treasury as the result of their employment and of their work, and that the percentage paid them in no case exceeded 20 per cent of their recoveries and collections. Does anybody know of a bond of the State which is for sale? Notwithstanding this cry of the Republicans concerning the alleged fiscal mismanagement and bankruptcy of the State Treasury, the gratifying fact remains to console Kentuckians that the bonded obligations of the Commonwealth command a premium in all the markets, and our credit is as good as that of the United States Government itself. He showed that the sum distributed for public education in the common schools had increased from \$300,000 in 1857 to \$1,500,000, in 1891, and that the State paid out for the education of negro children over ten times the amount of all the taxes paid by persons of that race to the State."

Kentucky Weather and Crops.

The State Weather Service says: "The temperature and sunshine last week were about the normal, while the amount of rainfall was upon the average considerably below it, although in some sections heavy local showers probably caused an excess. The cool nights and heavy dews which prevailed during the week, in a large measure offset any ill effects arising from deficient precipitation. All crops, with the exception of oats, are reported to be in excellent condition, and even this is better than was anticipated it would be some time back. Its poor showing is the result of injury received earlier in the season. It will be short in all parts of the State, and in some sections a total failure. Wheat threshing is about completed and the crop in most sections is above the average in quantity and quality. Corn is progressing finely, but would be improved with more rain. All reports received agree as to the excellent prospects for tobacco. Fruits of all kinds are abundant and of fine quality."

A Thread Worth \$1,500,000.

The late A. T. Stewart was harassed by a certain Treasury decision which vastly increased his payments of duties. His lawyer called one day about another matter. Stewart spoke in an exasperated way about the Treasury decision.

"Let me see the decision," said the lawyer. After reading it through he said: "This law speaks of 'all-silk' garments. Why don't you have a thread of worsted run into these goods when they are made abroad?"

"Will that come within the new law?" asked the great merchant.

"Certainly."

"How much do you want for that opinion?" asked Stewart a few minutes later.

"Fifty thousand dollars," said the lawyer. And he got it. He was modest, too, but a dollar went further in those days than it does now.

Stewart years after told his legal adviser that the casual suggestion made that day had been worth over \$1,500,000 to the merchant.

So the \$50,000 fee was not high.

The following frank statement from J. E. Hare, of Trenton, Texas, will be of interest to many of our citizens: "My little boy was very bad off for two months with diarrhoea. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhoea or colic medicine."

Mr. John Clark and wife, Miss Olevia Carter, Miss Evelyn Trenary and Jas. Pugh, Jr., spent the Fourth in Ashland.

A picnic near Clarksburg on the 4th there was a general row, in which pistols, knives, rocks, &c., were used, but no one was seriously hurt.

Misses Bertie and Bessie Carter, Mr. W. C. Halbert and wife, Mrs. Smith and daughter and Miss Rena Calmes and Miss Mollie Fitch spent the Fourth in the city.

At Penna Vista on the 4th, Thomas McKinney, of Quincy, was stabbed in the back by Frank Harrison, while engaged in a quarrel with a brother of Harrison.

Mr. and Mrs. James Gardner will chaperone a fishing party at the "Birely Ranch" on Kinney this week. Miss Magnier Ingrim, Miss Minnie Plummer, Miss Stella Agnew, Miss Blanche Cottingham, Miss Evelyn Trenary, Mr. Cell Plummer and R. D. Wilson constitute the party.

Quite a number of the young people from this city and county, who attended the races at Ashland, were poisoned by eating ice cream, which had stood in a rusty freezer over night. For a few hours they were seriously ill, but by the aid of a physician they were soon relieved of their awful sickness and fright.

The Esculapian Springs Hotel, under the management of the genial and handsome Charles Beach, is certain to be more popular than ever. The attendance at this time is larger than ever before this early in the season. The music is superb and superior to any they have ever had at that famous resort. All the guests speak in highest praise of the hotel, and especially of Mrs. Beach as a princess among hostesses. On a hot, sultry day when life is almost a burden elsewhere, it is a rare treat to step into those forests of coolest foliage where the air is laden with the fragrance of the wild flowers, the dogwood and the laurel, and tremulous with the songs of the sweetest music. There all nature is now robed in her loveliest and queenliest attire and no lover of it (or any other kind of a lover) can help but be surprised with the poetry of the magnificent surroundings, and drink deeply of the refreshing and invigorating atmosphere that kisses those lovely foothills of the Cumberland mountains. Its location is in a deep vale, shut out from the rude world by alpine hills, near clear streams of pure water that sparkle like threads of silver. It is withal a veritable paradise to the seeker of health and pleasure.

OUR NEIGHBORS.

MAYSLEICK.

The nights and mornings are quite cool and pleasant.

The harvest is about over. Now comes threshing season.

Ed. Myall and lady, of Paris, have been visiting friends here.

Mrs. Ennes Myall has been under the doctor's care for a week or more.

Bud Berry and wife, of Lexington, left for their home Monday morning.

Dwight's soda man passed through this place last Thursday, advertising his goods and leaving samples at houses on the road.

Joe and John Clary, of Cynthiana, and Foster Clary, of Carlisle, with their families, left for their home on the K. C. Monday morning.

The church contractors are not yet ready to have the depot at Hickman, owing to the busy season, and had to unload several cars Thursday morning or pay \$3 per day for the car.

Miss Sadie L. Wheatley, of Sardis, has been tendered the Ragland Academy, in Clark County. She will probably accept. No one more worthy and deserving.

Those who are in arrears for the DAILY BULLETIN will please call and settle with the agent, J. A. Jackson. He has to settle and pay for them the first of every month. The terms are always in advance.

Miss Anna Clary breathed her last, Friday noon, after several days of most excruciating pain. The body was embalmed, and the remains were interred at Shannon Sunday morning. Mrs. Bud Berry, of Lexington, sister of the deceased and her brothers Joe and John, of Cynthiana, and Foster, of Carlisle, attended the funeral.

There was quite a large crowd at the Blue Licks Sunday, and a good many roughs that behaved badly in the outskirts, but at the Hotel Pavillon and on the grounds proper we had quiet, and some very excellent music by Professor L. Wheeler, of Lexington, which all enjoyed. There were probably seventy-five or one hundred bicyclists there from Maysville, Sardis, Mt. Olivet, Cynthiana, Mayslick and other points. Carl Wheeler, of this place, made the run from Mayslick to the Licks, twelve miles and a half, in fifty-seven minutes.

The writer, in company with Mr. R. A. Collins, took a drive to the Blue Licks last Sunday. Stopped at the Pavillon, where we were highly entertained by the proprietor and his wife, Mr. and Mrs. Frank Bland, and at noon were seated at the first table to a beautiful dinner which we did ample justice to. There we met many old friends, Doctors Stitt and Bedford, of Maysburg, and Jimmy Sult and his estimable lady, of Sardis, and last, though not least, our old friend Colonel Herndon, who played the agreeable nicely for us.

JERSEY RIDGE.

Everything looks like it was ready for rain.

Miss Love Sidwell, of Minerva, is visiting Miss Jessie Kerr.

Miss Maggie Sidwell, of Tuckahoe, is visiting friends at Maysville.

Miss Hattie Martin, of Covington, is visiting relatives in this vicinity.

Miss Ida Proctor, of Chester, is spending a few days with relatives on Lawrence Creek.

While harvesting hay last week Mr. N. H. Richardson killed a copperhead snake about four feet long.

Mason Brog & Hughes' steam thrasher came here last week, and the farmers now say it is too late to thresh wheat.

Mrs. Warren Jones and son, of Manchester, O., are visiting Mrs. Jones' daughter, Mrs. C. T. Marsh, of Charleston Bottom.

Rev. J. E. Wright delivered an excellent sermon at Old Stone Church Sunday, after which he left for Germantown with Rev. Humphrey to assist him in a meeting.

BLUE LICK SPRINGS.

The second of the summer series of social hops, Pavillon Hotel, occurred Friday evening, July 1, with the floor committee annexed: W. T. Smoot, Flemingburg, R. E. Wilson, Mt. Olivet, G. W. Goodine, Mayslick, Dr. H. S. Keller, Carlisle, S. R. Allen, Maysburg.

Among the most graceful of the gliding and reverse figures floating over the waxed floor of the Pavillon we observed Miss Nancie Bland, of Maysburg, in a lovely gown of white china silk, demitrain, low corsage, with flouncing of embroidered chiffon; Miss Tillie Frazee, of Louisville, a type of fresh girlish beauty, in a gown of white silk and white ribbons; Miss Fannie Jones, of Flemingburg, in a gown of pale yellow with yellow petals; Miss Mattie Vimont, of Maysburg, was very handsome in white embroidered net; Miss Lida Allen, of Elizaville, with silk and tulle with blue roses; Miss Lillian Vansant, of Flemingburg, wore a gown of crepe de chene, with

THE remains of Mrs. Lizzie Smedley, wife of J. G. Smedley, of Millersburg, were interred yesterday at that place. She passed away Saturday, after an illness of several days. Deceased was a niece of Mr. John W. Boulden, of this city.

ANTHONY FRYER, a deaf and dumb man, was walking on the C. and O. track two miles east of Augusta Sunday morning when he was run down and killed by the westbound fast express. A railroad track is one of the places a deaf man ought to keep away from.

MR. THOMAS FARLEY, who won the gold-headed umbrella at the A. O. H. picnic Saturday presented it to Miss Alcee Clooney, the young lady who passed the bean jar around. In making his guess he promised if he won the prize he would present it to her.

FAST RUNNING.

Several C. & O. Engineers Fined for Violating the City Ordinance.

Messrs. J. W. Fairhead, A. Snedaker, J. R. Belton and Lewis Rice, engineers on the C. & O., were before Mayor Pearce yesterday afternoon on a charge of violating the ordinance limiting the speed of trains to six miles an hour through this city.

Fairhead and Rice were fined \$10 each. Snedaker and Belton were acquitted, as they were not on the trains on the dates charged in the warrants. W. W. Clements, another engineer, was fined \$10 under the ordinance last Friday.

Since the first fine was assessed there have been very few violations of the ordinance. The trains slow up as soon as they reach the city limits and the ordinance is complied with.

The engineers and other railroad men claim there is more danger of accidents resulting from this slow running than when the trains pass through at a moderate speed. People will now be inclined to jump on and off. This would not be attempted if the trains were allowed a speed of twelve miles an hour, and at that speed a train can be stopped within the length of a car, so there would be little or no danger of running over any one. Twelve miles an hour is the safest speed at which to make the run through this city, they claim, and if this be true the ordinance should be amended.

The most dangerous points in the city are the street crossings in the Fifth ward, and the company has decided to erect gates or guards at these crossings.

Public Speaking.

Senator Peffer, of Kansas, will speak in this city Friday, July 17th, at 1:30 o'clock p. m. He is a man of national reputation, having defeated John J. Ingalls for the Kansas Senatorship. The citizens of Maysville and surrounding country are invited to hear him. It

Caught a Horse Thief.

Tome Burbridge, colored, will have an examining trial this afternoon at 2 o'clock before Squire Grant on a charge of horse stealing.

Burbridge is certain of taking a trip to Frankfort and doing time for the State for a few years. He stole a horse from Mr. A. H. Calvert, of Lewisburg, Saturday night, and a short distance this side of Lewisburg he stole a buggy and harness from Mr. C. Loftus.

The case was placed in Captain Heflin's hands Sunday morning and that evening he arrested Burbridge at Washington. The property was recovered.

County Court Doings.

Sarah F. Turner, guardian of Geo. L. Turner and Ira V. Turner, filed a report of the estate of said wards.

Weisbrodt Dead.

George Weisbrodt, who was shot at Blue Licks Sunday by Riley Macklin, died yesterday morning at 10 o'clock. His slayer is still at large. The Governor will be asked to offer a reward for the murderer.

Macklin has shot three or four men, and is a desperate character. In some manner he has heretofore succeeded in escaping punishment, and has come to think he is law-proof. The killing of Weisbrodt seems to have been a cold-blooded murder. His friends are determined to push the case against Macklin.

Deceased was a relative of Mr. N. Golenstein, of this city. He was twenty-three years old, unmarried and was a son of Michael Weisbrodt, of Cincinnati. His remains were taken to that place this morning for burial.

A large majority of them were adults, two of whom were men aged seventy-five and eighty-four years.

WEATHER prophet Foster says: "My last letter gave forecasts of the storm wave due to cross the continent from July 6th to July 10th. The next will be due to leave the Pacific coast about the 12th, cross the Rocky Allegheny valley from the 13th to 15th, and reach the Atlantic coast about the 16th. This storm will be at its greatest force on the Pacific Coast and in the Rocky Mountains on the 12th and 13th, and take the southern route, causing cool weather throughout the United States north and west of its center. It will not be of any great note. The periodical great rainfall will begin about the 17th and continue throughout the month, having its greatest effect about the time the storm waves are due."

Senator Peffer.

Senator Peffer, who is known throughout the county as the Alliance man who defeated Ingalls in Kansas, will speak at Vanceburg Saturday, July 18.

Police Giants.

It is not a matter of general information, but it is a fact that the police force of Cincinnati contains more big men than even the famous "Broadway squad" of the New York police department. There are today in this city just 100 police officers each of whom is six feet and taller. An application for a place on the force was made recently by a man who is 6 feet 6 1/2 inches in height and superbly formed. His forearm measured 14 1/2 inches, and despite his great height he was all muscle and brawn, weighing but 220 pounds. He will no doubt receive an appointment.—Cincinnati Commercial.

Deluged by Sand.

The sand laden winds from the Lake Michigan shore have wiped out the town of Singapore, near Saugatuck, Mich. Every house except one has been completely covered up, and the family in this lone house has now been compelled to move into the second floor, the sand having filled the first. The same cause will eventually drive the people to the roof, as these sand dunes respect neither man nor his abode, and this little old town will become as thoroughly buried as Pompeii.—Exchange.

THEIR TACTICS OF NO AVAIL

The Weapons Used were Spittoons, Brick-bats, Stones, Razors and Billiard Cues. The Riot Finally Quelled by the Police Before Any Lives were Lost.

INDIANAPOLIS, July 7.—A serious riot between a part of the Southern Cadets, of Macon, Ga., who have been here attending the drill tournament, and some negroes, occurred on Kentucky avenue at 1 o'clock yesterday afternoon, in which two of the former were seriously injured, three slightly, and several negroes were badly beaten. Cadets Edwards, Freeman, Williams, Bradford and Bonner were passing down the thoroughfare, and were gazed by the negroes, a bootblack being very offensive in his references to the strangers. The cadets applied some epithets to him, and the bootblack, encouraged by older negroes in the crowd, threw his box at Edwards, and struck him a stinging blow upon the head.

The cadets then made for the crowd, which retreated into Heston's saloon, a low negro dive, and were followed by the cadets. As the latter entered the room they were met by a perfect volley of rocks, billiard balls and spittoons, Edwards, who was in the lead, being knocked down. Grabbing up the missiles the cadets returned the fire, and several of the negroes were knocked down. The fight then began hand to hand.

Freeman and Martin Lynch, a negro, closed upon each other with billiard cues. Edwards came to Freeman's assistance and Lynch was soon stretched upon the floor, bleeding from a dozen ugly wounds in the head. Another negro rushed upon Freeman with a razor and gave him a gash in the cheek, extending from the mouth to the back of the jaw. Williams was beaten terribly over the head with a billiard cue, and Bradford and Bonner, who were trying to defend him, were badly hurt by spittoons which struck them in the head, making ugly wounds, from which the blood flowed freely. When the fight was at its hottest, the police entered and arrested the combatants, both white and colored, and restored order. The southerners were taken to the office of the police surgeon, where their wounds were dressed. Williams and Freeman are both seriously hurt, but it is not believed that either are fatally injured. Great excitement exists and the Macon boys have been reinforced by their whole company, who are now on the spot. The police are in charge, however, and it is not believed that further trouble will result.

AN OCEAN CATASTROPHE.

A Large Unknown Steamer Sinks in the English Channel, Off Dover.

LONDON, July 7.—Sunday night a large steamer went down off Dover. One mast is alone visible above the water. No boats from sunken vessel have been seen as yet nor any conjecture made as to identity. Dover is wild with excitement.

The wreck off Dover seems to be that of a steamer of over 1,000 tons burden.

The steamer Kinloch from Zenbu passed Deal Monday with her bows smashed, and it is thought she may have been in collision with the sunken steamer. The channel mail boats reports a narrow escape from being run down by a large steamer Sunday night.

NEVER BETTER.

The Weather Crop Report for the Ohio Valley.

WASHINGTON, July 7.—Following is the crop report for the Ohio valley for the week ending July 3:

Indiana—Weather conditions favorable to crops and harvesting. Wheat and hay all cut in central and southern portions. Corn growing in fine condition.

Kentucky—General outlook never better. Wheat above the average; oats short, but better than anticipated. Tobacco excellent and fruit abundant.

Ohio—Harvest in progress; yield above and of good quality. Wheat lodged badly in northern sections. Corn, potatoes and tobacco excellent.

Street Railway Troubles in Indianapolis.

INDIANAPOLIS, July 7.—The trouble between the street railway company and the stablemen is still unsettled, and a general strike among the employees is expected. The company has offered to put striking stablemen upon the extra pay-roll, but, as this would give them but little work, the proposition has been rejected, and the company has been notified that it must reinstate them, or the conductors, drivers and motormen will go out. As the places of the stablemen have been supplied with new men, the company contends that this can not be done in justice to those recently employed.

SAN FRANCISCO, July 7.—A carload of tea which was being run on board a freight boat from the dock on Saturday night fell into the harbor and sunk. About 20,000 pounds of tea in all were lost.

Fell From a Roof.

BOSTON, July 7.—William E. Nelson, a telegraph operator, supposed to have come here from Pittsburgh, fell off the roof of a building on Fremont street yesterday, and was instantly killed.

Telegrams and Letters of Condolence. BANGOR, Me., July 7.—Many telegrams and letters expressing condolence have been received by the family of ex-Vice President Hamlin.

MYSTERY SOLVED.

Salton Lake is Made by Overflow of Colorado River.

LOS ANGELES, Cal., July 7.—G. W. Durbrow, superintendent of the salt works at Salton, wires as follows: "The Indian I sent out from Volcano Springs has returned. His statement settles the question of the water coming from the New River country. The water is coming into the sink at Salton through Carasco creek. I made a diagram of his trip, as he told me. His story was compared with the map, and I found him truthful in every particular. The course of the water can be traced by land from Fig Springs. The water empties into Salton sink, twenty-five miles south of Salton. The water is rising slowly, but moving to the west fast.

A dispatch from the railroad agent says the water has risen one and a half inches in the past twenty-four hours, and is much fresher.

Since the source of the water has been definitely solved as coming from the Colorado river by way of New River, and the fact that the railroad track is in no danger, interest has subsided and all that can be done is to await developments.

Uncle Joe Cannon at Work.

TUSCOLA, Ill., July 7.—Joseph G. Cannon was, in a measure, defeated last fall by a number of Republican papers in the Fifteenth district. It is now understood that he desires to run again in 1892, and has set out to get the opposing papers into hands that are friendly to him. A short time ago he secured the Danville Commercial, then the Christian Courier, and now the Arcola Record has been purchased of Col. C. V. Walls, who led the fight against the congressman, by Judge Bassett.

Brazil's Finances.

NEW YORK, July 7.—A private cable dispatch from Rio Janeiro to a house in this city engaged in the Brazilian trade, announces the reorganization of the Brazilian cabinet, with Don Lucerna as minister of the treasury. This appointment, the dispatch says, gives much satisfaction. Don Lucerna was formerly minister of agriculture.

Carpet Mills Burned.

PHILADELPHIA, July 7.—Fire yesterday destroyed the large five-story carpet mill of E. R. Priestley, 1310 Lawrence street, involving a loss of about \$100,000. Messrs. Furbush & Company, who had machinery stored in the building will lose at least \$30,000. Mr. Priestley had an insurance of about \$40,000 on building and contents.

Hotel Burned.

LA GRANDE, Or., July 7.—The Blue Mountain hotel at this place was burned Sunday night, the guests of which had a very narrow escape. The fire spread to frame dwellings close by the hotel, and before the flames could be extinguished four blocks of these buildings were destroyed. Loss, \$100,000; insurance, \$40,000.

Mother and Son Drowned.

FORT MORGAN, Colo., July 7.—Mrs. Hanna Jepson and her 14-year-old boy Louis were drowned in the Little Beaver creek, six miles south of this place, yesterday. The boy went in bathing and got beyond his depth. His mother came to his rescue, and she too was drowned. The father attempted to save his wife but could not, and barely escaped her fate.

Last Hour Approaching.

SING SING, N. Y., July 7.—The four murderers awaiting here to be electrocuted, have not yet been informed when the execution will take place, but as all the witnesses are now present, it is very probable that their last hours are drawing nigh.

An Informer's Fee.

WASHINGTON, July 7.—Acting Secretary Nettleton has directed that S. C. Osborn, of New York city, be paid \$150 for work done in informing on Henry Metz of Palo, Ill., for violating the alien contract labor law. The case was tried in the courts and Mr. Metz was fined \$1,000. The law provides that the informer shall receive 15 per cent. of the judgment recovered. Mr. Osborn is the first man under the law to receive his proportion as informer.

Drouth Becoming Serious.

JEFFERSONVILLE, Ind., July 7.—The drouth is becoming serious. The grass is like tinder, and constant alarms of fire keep farmers along railway lines busy. Yesterday field fires broke out at McCulloch's, Applegate's and Herold's, spreading rapidly and threatening wheat crops, houses and barns. The entire neighborhood turned out and fought the fire, barely saving the wheat. Several crops of wheat have already burned.

Boy Fatally Injured.

CINCINNATI, July 7.—Frank Beckman, aged 11, of 38 Mad Anthony street, Cumminsville, while climbing a tree after a bird's nest, fell to the ground and was fatally injured.
